ALL ABOUT KIDS PEDIATRICS, INC

FINANCIAL POLICY

We are committed to providing your child with the best possible medical care; if you have special needs; we are here to work with you. The following information is provided to avoid any misunderstanding or disagreement concerning payment for professional services.

Our office participates with a variety of insurance plans. It is your responsibility to:

- Bring your insurance card to every visit
- Be prepared to pay your co-pay and deductible at each visit. Payment can be made by cash, check, or credit card.
- NSF fees are assessed in the amount of \$50
- Pay for medical care not covered at the time of visit
- Resolve unpaid balances within 30 days. Late fees of \$5 per month and interest of 18% will accrue on unpaid balances.

If you have insurance that we do not participate in, our office is happy to file a claim on your behalf, however, payment in full is expected at the time of service.

Our office utilizes Merchants Credit for collection services. Should your account be delinquent be aware that interest charges and late fees accrue on accounts sent to collections. Patients whose accounts are sent to collection are discharged from the practice. In order to be reinstated to the practice you will need to settle your account with the collection agency and reimburse the office for the percentage our office had to pay the collection agency for your account.

Most of our patients are minors (18 years and younger). Parents of minor children must sign below. The parent, guardian is responsible for any payment due at time of service. Ultimately the parent signing this statement is responsible for the patient's bill. Our office does not interfere or get involved with custody agreements for patient care or for payment for services rendered.

All parents are responsible for any charges for newborn patients that are not eligible for services on the date seen. Our office will allow you 30 days without asking for upfront payment in order for you to get your insurance active. Our office files your insurance as a courtesy and you are ultimately responsible for the payment. We will do everything to help resolve issues but please remember our office staff is limited in what we can do. At times we will ask you to contact your carrier or employer when issues arise. If you have questions about your insurance we are happy to assist you. Specific coverage issues should be directed to your insurance carrier's member services department. The number will be on your insurance card.

Questions about financial arrangements should be directed to the billing department. Our office provides a prompt pay discount for patients with no insurance of 40% when paid on the date of service. We will assist with payment plans when necessary but you will be required to provide an active credit card to keep on file for us to process your monthly payment.

Please sign that you have read and agree to this financial policy.

INFORMED CONSENT PURSUANT TO FLORIDA STATUES SECTION 456.51 CONSENT REQUIREMENTS/EXPLANATION OF SCOPE OF CARE

The American Academy of Pediatric recommends that all children and adolescents have an Annual Well Visit where screenings and a complete physical exam are completed. In addition, GC/Chlamydia screening is universally recommended annually starting at age 16. One component of a complete physical exam is inspection and palpation of the external genitalia to ensure normal age-appropriate development and to document that there are no abnormalities. We will verbally inform you/the patient prior to doing this part of the exam, as we know there is sensitivity, but we need to ensure each patient has been evaluated appropriately. Additionally, if a child or adolescent presents with complaints that could be attributed to the genital area or rectum, we may need to examine the genitals and/or complete a rectal exam to ensure an accurate diagnosis.

Florida has passed a new law that requires any health care practitioner that is examining or treating a patient's pelvic region obtain a written consent. This consent applies regardless of gender and will remain active on the patient's chart until the patient is 18 years of age or is no longer considered an active patient of the practice. Once a patient reaches the age of 18, we will obtain consent from the patient.

CONSENT FOR EXAMINATION OF EXTERNAL GENITALIA

By signing below, the patient (or the patient's legal representative) acknowledges that he/she has been given the opportunity to ask questions about the external genitalia examination before signing this Informed Consent and that the patient (or legal representative) has voluntarily agreed to the external genitalia examination by a health care practitioner. Under Florida law, prior to performing a pelvic examination, consent must be obtained. While we do not perform internal pelvic exam in our office, the components below are included in the FL law and maybe performed:

- External genitalia examination, including of the penis, scrotum, vagina, and or labia
- Examination of the perineal area or the perianal area or rectum
- Administration of a suppository or other rectally administered medication
- Taking of a rectal temperature in an infant
- Evaluation and reduction of labial adhesions or penile foreskin adhesions
- Placement of a urinary catheter
- Collection of rectal or vaginal samples via swab for laboratory analysis

The RISKS to the examination include (but are not limited to): discomfort or infection

The RISKS associated with failing or refusing to undergo the examination elements above include: the inability to obtain a diagnosis and/or delay in diagnosis of a medical condition; the inability for the health care provider to have accurate and complete information necessary to appropriately treat the patient; and inability to clear a patient for sports without a full physical examination. The REASONABLE ALTERNATIVES include a refusal for the intervention assessment. In such case, shared decision making between the patient, their legal representative and the provider is vital to ensure health and wellbeing. The BENEFITS include ability to obtain a diagnosis of a medical condition and the ability for the health care provider to have accurate and complete information necessary to appropriately treat the patient.

If you have any questions, please talk to your All About Kids pediatric health care provider.

I acknowledge that this consent was given freely and voluntarily. By signing below, I confirm that I have read, fully understand, and consent to All About Kids conducting a pelvic examination/testing. I also acknowledge that I understand the information in this form, including the purpose, risks, and benefits of the pelvic examination and that I have had my questions answered.
